**DECLARATION BY ATTORNEY IN SUPPORT OF PETITION TO MAKE
SPECIAL BECAUSE OF ACTUAL INFRINGEMENT (MPEP § 708.02)**

I, Philip G. Meyers, hereby declare and allege as follows:

(A) That there is an infringing product actually on the market, namely the product referred to in the accompanying declaration of Robert F. Crane;

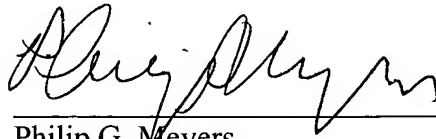

(B) That a rigid comparison of the alleged infringing product referred to in the accompanying declaration of Robert F. Crane with the claims of the application has been made, and in my opinion, at least some of the claims are unquestionably infringed; and

(C) I have made a careful and thorough search of the prior art. One copy of each of the references deemed most closely related to the subject matter encompassed by the claims were submitted with Form 1449 when this application was filed, and a supplemental information disclosure accompanies this petition.

I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18

of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

**DECLARATION IN SUPPORT OF PETITION TO MAKE SPECIAL BECAUSE
OF ACTUAL INFRINGEMENT (MPEP 708.02)**

I, Robert F. Crane, hereby declare as follows:

1. I am an inventor of the foregoing patent application and an employee of Earth Tool Company LLC, the assignee of the application.

2. I recently attended UCT 2005, an underground construction technology show that was held in Houston, Texas from January 25, 2005 to January 27, 2005.

3. In the exhibit hall at UCT 2005, I observed and took photographs of a new winch product being offered by TT Technologies, Inc. ("TT").

4. Exhibits A to E attached to this declaration are printed copies of the digital photographs I took.

5. The product was described to me and to members of the public viewing TT's exhibit as a telescoping winch competitive with the telescoping winch sold by Earth Tool Company LLC and described in the foregoing patent application.

6. The photographs of the attached Exhibits show that the unit has a mobile frame (A) on which a cable spool (B) is mounted. A telescoping mast (C) held by a holder (D) and the end of a pivotable arm (E) can swing from a horizontal storage position to a vertical deployed position substantially as shown in Exhibit B. In Exhibit C, the cable (G) is shown emerging from the end of a downhole unit (H) which includes a sheave (I). Exhibit D shows the rear end of arm (E) and the housing of the winch capstan (F). In the

storage position, the mast (C) is securable to a flange (J) shown in Exhibit E. The control panel (K) includes a switch labelled for raising and lowering the mast. From my observations, I believe that the TT winch shown in my photographs is an infringement of the claims pending in ETC's foregoing patent application.

7. I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that wilful false statements and the like are punishable by fine or imprisonment, or both under 18 U.S.C. §1001 and that such wilful false statements may jeopardize the validity of the application or any patent issuing therefrom.

Respectfully submitted,

Robert F. Crane
